## PROFESSIONAL SUMMARY

- Entry-level Software Developer with experience in ASP.NET Core, Java, and React. Worked on REST APIs, backend services, and database-driven applications during internships and trainee roles. Comfortable working with Git and SQL. Seeking a Trainee Software Developer role.

## TECHNICAL SKILLS

- Languages:** C#, Java, JavaScript, SQL
- Backend:** ASP.NET Core, Spring MVC, JDBC, Hibernate, REST APIs
- Frontend:** React, Tailwind CSS, HTML, CSS
- Databases:** Oracle, MySQL, PostgreSQL
- Tools:** Git, Postman, Docker, Jira
- Security:** JWT, Role-Based Access Control

## EXPERIENCE

- |  |                            |
|--|----------------------------|
| <b>Maximus Infoware</b>  | Thane, Maharashtra         |
| • <i>Software Engineer Trainee</i>   | <i>Dec 2024 – Present</i>  |
| – Worked on backend services using ASP.NET Core and Oracle for internal applications |                            |
| – Fixed bugs in controllers and service layers under senior guidance                 |                            |
| – Implemented validation and logging in API workflows                                |                            |
| – Worked on JWT-based authentication and role-based access                           |                            |
| <b>Sanisoft Infotech</b>   | Ichalkaranji, Maharashtra  |
| • <i>Full Stack Developer Intern</i>   | <i>Nov 2023 – Mar 2024</i> |
| – Developed React components for academic management modules                         |                            |
| – Integrated REST APIs for attendance and result features                            |                            |
| – Handled frontend bug fixes and API error handling                                  |                            |
| <b>Tiyara Innovations LLP</b>  | Remote                     |
| • <i>Full Stack Developer Intern</i>   | <i>May 2024 – Aug 2024</i> |
| – Built reusable UI components using React   |                            |
| – Implemented JWT-based login and session handling                                   |                            |
| – Assisted in debugging backend APIs   |                            |

## PROJECTS

- |  |        |
|--|--------|
| <b>Hustle.ai</b>   | GitHub |
| • <i>AI-based Job Matching Platform</i>                    |        |
| – Developed a job matching platform using MERN and FastAPI |        |
| – Integrated Sentence-BERT for resume matching             |        |
| – Built REST APIs for job and user management              |        |
| <b>Document Workflow Manager</b>                           | GitHub |
| • <i>Secure Document Approval System</i>                   |        |
| – Built a document approval system with role-based access  |        |
| – Implemented JWT authentication and AES encryption        |        |

- Designed multi-level approval workflows

- **Rental E-Commerce Platform**

GitHub

- *React & Spring Core*

- Developed a rental platform using React and Spring Core
- Implemented product, cart, and order APIs
- Connected frontend with backend services

---

## EDUCATION

- **DKTE, Ichalkaranji**

Ichalkaranji, Maharashtra

*Sep 2023 – May 2026*

*B.Tech in Computer Science*

Relevant Coursework: DSA, DBMS, OS, Software Engineering

- **LESP, Kupwad**

Kupwad, Maharashtra

*Jun 2020 – May 2023*

*Diploma in Computer Engineering*

---

## LEADERSHIP & ACHIEVEMENTS

- **MLSA President**

DKTE, Ichalkaranji

*Fall 2024 – Jun 2025*

- *Student Chapter Lead*

- Organized technical workshops and coding events
- Winner – National Level Tech-Symposium I&AI 2023
